FOR IMMEDIATE RELEASE

Fiscal Systems is Roady's Truck Stops Preferred Vendor for Point of Sale & Retail Automation Solutions

MADISON, Alabama, March 29, 2010- Fiscal Systems and Roady's Truck Stops announced today that Fiscal's Point of Sale (POS) is the preferred retail automation and fuel desk management solution for Roady's members. Fiscal's POS with PA-DSS compliant software is a critical step for Roady's retailers seeking PCI Compliance by the July 2010 deadline. Fiscal's POS controls the fuel dispensers, credit card readers, in-ground tank monitors, and car wash systems. To meet the growing needs of retailers, open-architected systems such as the Fiscal POS provide retailers with functionality and technology to meet their business needs cost effectively.

Bringing Roady's Truck Stops together with Fiscal's software products provides retailers in the Truck Stop and Convenience Store market a viable alternative when considering their retail automation needs when replacing their non-compliant, legacy systems. Fiscal's intuitive touch screen makes every task quick and easy as well as improves efficiency and enables greater control of the retail site combining all their revenue centers into one system.

"We are excited about our preferred vendor relationship with Roady's Truck Stops," states Tony Burks, Vice President of Sales & Marketing at Fiscal. "We look forward to providing our PA-DSS compliant software solutions to Roady's retailers."

About Roady's Truck Stops

Roady's Truck Stops is the largest chain of truck stops in the United States with nearly 300 locations in forty-five states. Headquartered in New Plymouth, Idaho, Roady's serves as a membership-based buying group for the Truck Stop and C-Store industries. The Roady's Truck Stop network allows independent truck stop locations to leverage fuel marketing and corporate buying power to get maximum return.

About Fiscal Systems

Fiscal Systems offers a strategic approach to linking Fuel Control to C-Store systems, ensuring your profit centers operate securely, accurately, and conveniently. Fiscal makes it all work together, delivering direct and seamless connections via a scalable, robust base system making it easy and affordable to add additional features later without spending a fortune. Fiscal Systems delivers the software on IBM SurePOS™ hardware to provide the lowest cost of ownership and fast, on-site repairs reducing the number of points of contact to ONE- Fiscal Systems.
